How to advocate with children for their safety

As a safe adult, you have tremendous power to make a profound difference for children - not only by recognizing and responding to unsafe situations, but also by teaching children about their rights to safety and creating environments where they can speak up and get help. There are skills we can teach to children to help them to better protect themselves when faced with tough situations like child sexual abuse or grooming experiences where their boundaries are violated. It is important to make sure children know this, so they don't feel guilt or shame if abuse does happen, to them or to a friend. For more information, read the VIRTUS[®] article "How to Advocate Directly with Youth for their Safety and Wellbeing" at [lacatholics.org/did-you-know](https://www.lacatholics.org/did-you-know).
